

ASB9 抗原(重组蛋白)

中文名称: ASB9 抗原(重组蛋白)

英文名称: ASB9 Antigen (Recombinant Protein)

储 存: 冷冻(-20℃)

相关类别: 抗原

概述

Full length fusion protein

技术规格

| Full name: | ankyrin repeat and SOCS box containing 9 |
|--------------------|--|
| Swissprot: | Q96DX5 |
| Gene Accession: | BC001244 |
| Purity: | >85%, as determined by Coomassie blue stained SDS-PAGE |
| Expression system: | Escherichia coli |
| Tags: | His tag C-Terminus, GST tag N-Terminus |
| Background: | This gene encodes a member of the ankyrin repeat and suppresso r of cytokine signaling (SOCS) box protein family. Members of this family can interact with the elongin B-C adapter complex via their SOCS box domain and further complex with the cullin and ring bo x proteins to form E3 ubiquitin ligase complexes. They may functi on to mediate the substrate-recognition of the E3 ubiquitin ligases . A transcribed pseudogene of this gene has been identified on ch romosome 15. Multiple transcript variants encoding different isofor ms have been found for this gene. |
